September 1, 2006

Dear Monte,

It is with great joy that the Board of Directors of the International Association for the Study of Dreams presents you with an honorary lifetime membership.

I want you to know that while I wholeheartedly supported this gesture, I was not the one who proposed it.

Monte, whether you realize it or not, your work has had a profound influence on IASD and dreamers around the world. The IASD Ethics Statement, which every presenter at every conference must adhere to, is the embodiment of your principles of dream work—the importance of a safe atmosphere for dream work, that the dreamer is the decision-maker regarding the significance of the dream, and that the dreamer's decision to share or discontinue sharing must be honored.

On your birthday, I hope you will take a moment to appreciate how much your philosophy of dreams has impacted IASD and dreamers everywhere. You are the father of the group dream work movement that has taken hold all around the world! While not everyone uses your group process exactly as you would prefer, you have nevertheless liberated dreamers everywhere from feeling that they need an "expert" to help them understand their dreams. What an accomplishment!

And, as if that weren't enough, you have also created credibility for precognitive and telepathic dreams. Now people can discuss these dreams without fear of being thought crazy. (And I'm one whose sanity you helped affirm!)

Then, this summer you received a standing ovation from hundreds of dreamers from dozens of countries around the world for your groundbreaking work creating a quantum physics model of dreaming and consciousness.

Dearest Monte, the worldwide community of dreamers embraces you and your amazing contributions to dream work. And we look forward to what is yet to come!

Wendy Pannier
President, 2005-2006

*To Montague Ullman, M.D.,
in recognition of your
pioneering dream work efforts
and a lifetime
of leadership and contributions
to the international dream community,
the International Association
for the Study of Dreams
is pleased to present you
with an honorary lifetime membership.*
